ICE IN?

Nope, not yet. The ice formed early and melted away with all the recent rain and warm temps. Patience!!

WHO ARE OUR PARTNERS?

The [Lake Stewards of Maine](#) is one of three non-profits that the Worthley Pond Association partners

with in an effort to protect and preserve the beauty and health of Worthley Pond. Their most recent newsletter features an article called [Understanding Water Quality Indicators](#), which includes a wealth of information to help all of us to better understand the value of the WPA's [Water Quality Programs](#).

One of the [Lake Stewards of Maine](#) programs that the WPA utilizes is their [Invasive Aquatic Species Certification](#). Our annual process of surveying the pond for invasive plants relies heavily on our team of Shoreline Steward volunteers who have completed this online training and have participated in at least one plant identification workshop conducted by the Lake Stewards. For more information, please [contact the WPA](#).

ARE YOU LAKE SMART?

To date, Worthley Pond has [56 properties](#) that are LakeSmart Certified – yeah!! Whether you are a new property owner or someone who is not already in the LakeSmart program, **please join us** for this educational experience. For more information, please contact [Dave Clement](#) (207-474-3964).
